Intwine Energy Communicating Thermostat

Intwine Web Portal and iPhone App

**Affordable comfort at the click of a mouse...** The IECT-220 is a full-featured internet-connected programmable thermostat. When programmed properly the IECT-220 is capable of saving homeowners 15-20% on heating and cooling costs or close to \$200 annually (Energy Star). Realizing these savings has never been simpler with the ability to remotely monitor and control the IECT-220 with Intwine's consumer web-portal and iPhone app! With the IECT-220 and Intwine's connectivity solution there is finally a completely flexible platform capable of simultaneously fulfilling the needs of both energy providers and consumers.
